

MOSDORFER INDIA

Fittings and damping systems
for overhead transmission lines

Mosdorfer

**Your first choice in all your
transmission line projects !**

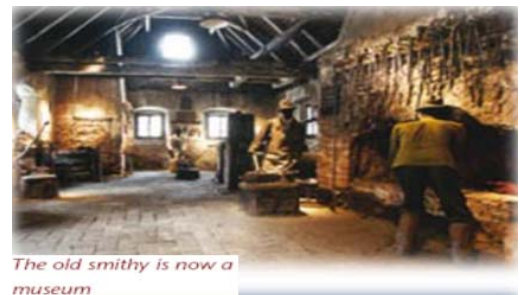

*Over 200,000 km overhead transmission lines today is equipped with Mosdorfer overhead fittings
... And with this length one could easily encompass the world five times with overhead
transmission lines...*

**Mosdorfer, a group more than 300 years old, is
a reputed name in overhead transmission line
fittings and has been manufacturing these items
for more than 60 years.**

With an experience of delivering these products across more than 80 countries and having successfully installed hardware in all kinds of environmental conditions, Mosdorfer today is equipped to respond to any customer specifications using innovative designs, backed by a large number of product range and experience gained over the decades, thus providing customers with complete customized solutions. This makes us the world's leading solution provider for complete range of hardware fittings, conductor accessories, earthwire accessories and OPGW accessories for overhead transmission lines.

Mosdorfer today has manufacturing & testing facilities in more than 7 countries around the world which is capable of serving any customers all over the world.

*The old smithy is now a
museum*

Mosdorfer India Pvt. Ltd.

TimeLine

- 1712 First time MOSDORFER was mentioned, acting as a Hammer Mill in Weiz, Austria
- 1948 MOSDORFER entering into overhead line fittings.
- 2008 MOSDORFER acquired DAMP Srl, Italy
- 2008 MOSDORFER started manufacturing facilities for Spacer Dampers in Khopoli, India under the name Mosdorfer India Pvt. Ltd. (MIPL)
- 2011 Mosdorfer India started manufacturing complete overhead Transmission line fittings & Accessories in Nashik, Maharashtra & also shifted the Spacer Damper facility from Khopoli to Nashik

Mosdorfer India Pvt. Ltd.

Product Line

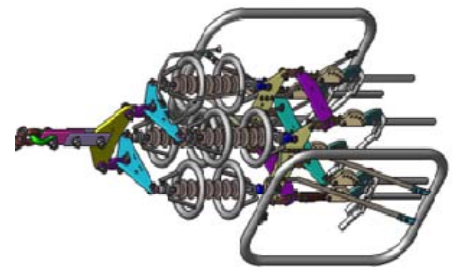

With the increasing energy demand and India's target to deploy long haul UHVAC & UHVDC transmission lines, Mosdorfer India Pvt. Ltd. started its operations in Nashik in 2011 to be a part of India's prestigious energy chapter by meeting customer requirements and providing high performance quality and reliable products for 400kV & above voltage levels.

Mosdorfer India today manufactures complete range of:

- String Fittings
- OPGW fittings
- Damping Systems
- Conductor Accessories
- Earthwire Accessories
- Fittings for High Temperature Conductors

Mosdorfer India is also the authorized licensee of Damp s.r.l., Italy, who is the market leaders for damping systems in transmission lines, and is now a subsidiary company of Mosdorfer GmbH, to manufacture type tested designs of spacer dampers.

Damp is one of the first manufacturers of Spacer Dampers with a remarkable experience of more than 30 years. Over 4 million DAMP Spacer Dampers upto eight bundle conductors for any voltage up to 1000 kV are successfully in operation throughout the world.

MANUFACTURING AND TESTING FACILITIES

Mosdorfer India Pvt. Ltd. Plant is equipped with machineries and testing equipment for manufacturing of complete range Overhead Transmission Line fittings. Testing equipments are available for conducting:

- *Mechanical Test*
- *Hardness Test*
- *Vibration Test*
- *Metallurgical Test*
- *Chemical Analysis*
- *Electrical Tests (Magnetic Power Loss, Heat Cycle Resistance and Conductivity) etc.*

PRODUCTS THAT BEAR SPIRIT OF INNOVATION

At Mosdorfer innovation never stops. Scrutinizing new trends, techniques, standards and developments, products are permanently being improved to meet the increasing requirements placed by users

An enlargement of products range towards:

- Very High-Temperature Conductors
- Materials tough at Subzero Temperature
- Extra-High voltage of upto 1200kV
- Corrosion Resistance
- Operating Safety

*Suspension string for 1200kV
developed at MIPL*

Mosdorfer India Pvt. Ltd.

Few of our Prestigious Projects in India

Project: BDTCL & JTCL Boot Project

Client: Sterlite

- With a ckt km of 2200kms, this is the single largest order ever placed on any hardware supplier in India.
- Supplying fittings for:
 - 400kV Quad DC Line
 - 765kV Quad SC Line
 - 765kV Hexa DC Line
- The task is to supply complete quantity in a record time of 1 year. Almost 50% has been supplied till date.

Within just year and a half in operation, we are already approved with:

- PGCIL
- RRVPNL
- MSETCL
- Sterlite
- Reliance

Project: 400kV DC Quad Samalkot Project

Client: Reliance Infra

- Supplied Fittings for High Temperature Conductor (BTACSR)

Project: WRSS II Project

Client: Reliance Infra

- Supplied more than 150,000 Spacer Dampers

GLOBAL QUALITY

- Mosdorfer follows the principle "First Time Right"
- All Mosdorfer parts meet legal guidelines, directives and standards.
- Mosdorfer provides complete customized solutions as specified by the customers
- The Quality Standard of Mosdorfer ISO 9001:2000 is the standard according to which all locations are certified and is supporting tool for enabling the presentation and development of business process

QUALITY OBJECTIVES:

- 
- *IMPROVE CUSTOMER SATISFACTION. (Mkt.)*
 - *TIMELY DELIVERY TO CUSTOMERS. (Prod.)*
 - *REDUCE INHOUSE REJECTION. (QA)*
 - *REDUCE CUSTOMER END REJECTION. (QA)*
 - *TRAINING TO EMPLOYEES. (MR)*
 - *INCREASE IN SALES TURNOVER. (Mkt.)*
